Introduction—About Us

Established in 2003, Victoria Forms is a leading provider of intelligent, web-based electronic forms software and workflow solutions. Our eForms solutions can be used within an organisation or made available to external users, applicants or claimants via the Cloud or server-based infrastructure. Our software is currently being used with **over 75 Local Authorities in the United Kingdom**.

Standard Revenues Form Library

Our standard Victoria Forms Revenues Form Library is continuously growing. This catalogue showcases our current **73 Standard Revenues Forms** in our library, which are broken down into sections as shown on the front of this catalogue.

Form Types

All our Standard Revenues Forms are available in two different versions. Static forms are designed to look like familiar paper application forms, and interactively guide the applicant through filling them in. The screenshots in this brochure are of static forms. Alternatively, our Web/Text based forms are becoming increasingly popular, simplifying user experience by reacting to given answers and sliding additional relevant questions in to view when they are needed. The style of these forms can be customised to match your Local Authority Website and branding..

Standard Form Pages

All of our eForms contain a Status and System Page (front and back pages).

Someone who is completing a form will always see the Status Page as the first page. The Status Page has one main function: to draw information from a database about the Local Authority for which the form is being completed. This page displays any relevant information as decided by the Local Authority; such as opening hours, contact details and how to complete the online form. This information is set within our 'branding' files, and is fully customisable for anything that the local authority wishes to add to the start page of their forms.

The System Page will never be seen by anyone completing the form or by anyone at the Local Authority; this page simply acts as our control page to set the intelligence within the form.

Back Office Integration

In administering forms, data collected is often manually keyed into a back-office system. With Electronic forms, the wastefulness of having to key information twice is being addressed – back-office systems are increasingly opening up to receive data electronically. Some of our Revenues Forms (Direct Debit, Single Person Discount, Single Person Discount Cancellation, Change of Address) are already set up for back office integration straight into Northgate.

Combined Exemption and Discount Form

This application form allows claimants to select one of 29 reasons for claiming Council Tax Discount or Exemption. On the first page of the application form, the applicant can fill in basic details about themselves and then select whether the property they are claiming reduction on is occupied or unoccupied. This will then bring up the exact discounts/exemptions they can apply for from the list below based on the occupancy of their property.

On selecting the exemption they wish to apply for, the correct and relevant pages then open up for the claimant to complete.

This form is comprised of sections on:

- Liable Council Tax Payer
- Liable Occupant(s) details
- Select Discounts/ Exemptions you wish to apply for
- Details of selected discounts
- Declaration
- Extra Information Page

Length: 38 Pages Altogether (This will vary depending on answers given—for example; if a claimant said they were a school/college leaver, the form would appear to them as a 5 page form.)

Declaration: Checkbox and Printed and Signed by certain people.
